

Miele

SmartBiz Commercial Washer and Heat Pump Dryer

Warranty: 1 Year Parts & Labour

PWM 300 DP Washer

Stainless Steel flange - Long service life due to high resistance

Washer-dryer stack - Washer-dryer needs less than 0.5m² floor space

Precise auto-load recognition - Consumption is automatically adjusted

Large capacity - Accommodates large loads of laundry

Low consumption values - Economical and efficient

Honeycomb drum - Allows garments to glide gently on a thin film of water

Enamelled front - Scratch, acid and corrosion resistant and is easy to clean

Cottons 60°C wash programme - 79 minutes per cycle

PWM 300 DP

PDR 300 HP Heat Pump Dryer

PerfectDry - Precision drying of all fabrics

Axial airflow - Air is passed through the drum according to the principle of longitudinal air flow

Fluff filter - Positioning in the door ensures easy access to clean

Washer-dryer stack - Washer-dryer needs less than 0.5m² floor space

Gentle tumble function - Activated for drying particularly sensitive items

Condensed water drainage - Water can be drained directly via a hose

Drum lighting - No item is overlooked thanks to the lit honeycomb drum

Normal drying programme - 125 minutes per cycle

PDR 300 HP

Model	Type	Capacity	Drum Volume	Wash/Dry Noise Level	Spin Speed	Dimensions (mm) Width / Depth / Height	Energy Consumption	Water Consumption	Energy Rating	Tested Operating Hours
